CHS Soccer players are geared up for their 2nd season.

CHS has started TAG groups to improve the unity and character of the school. Students' names were randomly drawn to determine who was in each group. Each group was assigned to a teacher. The groups will meet on club days and other special occasions. They will do team building activities and discuss character traits. The character word for February was "caring". Students receive "tiger eyes", if they are caught doing a random act of kindness. The cards with their names on them go into a drawing for rewards such as a homework pass, test exemption, or off-campus lunch. The students seem to be very excited about this new program.
