Middle School Curriculum Alignment

The Commerce Middle School is proud to announce that we have now completed our vertical alignment. The teachers from each department have met and through the combined efforts, we were able to set an alignment that we can follow. This alignment is crucial to insure that there is minimal overlapping of reteaching and that all state standards and objectives are being taught.

8th Grade Testing

The eighth grade class is once again gearing up for their State Writing Test which has always been given during the month of February. However, due to the forced cancellation of school for so many days, the state has extended the writing test window until March 9 - 10. As a class, the students are extremely relieved to have the lost time back and they are very excited but extremely nervous about how they will score. Many of the students say that they think they are prepared and would just as soon get it over. However, as always, there are a few who wish we had even more time to prepare.

EVENTS

FEBRUARY
